(b) if so, the details thereof; and

(c) the steps proposed to be taken to give it a wide publicity and extend the technique to major hospitals in the country so as to benefit vast majority of diabetic patients?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) and (b) the Indian Council of Medical Research has reported that Ganga Ram Hospital, New Delhi has formulated a new angioplasty technique called 'Subintimal angioplasty'. This has been devised by Dr. Aman Bolia, an Indian working in Leicester, United Kingdom and is hence called the "Bolia-Technique". Subintimal angioplasty differs from the usual intraluminal angioplasty because subintimal angioplasty is performed in the wall of the artery to create a new non-diseased channel underneath the diseased lumen area, whereas traditional angioplasty opens the narrowed lumen.

(c) Information in this regard will be collected and laid on the table of the house.

New medical and dental colleges

1370. SHRI T.T.V. DHINAKARAN: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the details of new medical/dental colleges for which the Medical/ Dental Council of India have given approval during the last three years;

National List of Essential Drugs

1371. SHRI NAND YELLAIAH: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the details of National List of Essential Medicines, 2003 which his Ministry has bought out after the review of the National Essential Drugs List, 1996;

(b) whether enough safeguards had been provided in this list of 2003 to keep the prices of essential medicines and life saving drugs under control, so as to keep the prices of these drugs within the reach of a common man;

(c) if so, the details thereof; and

(d) if not, the reasons therefor?
